AGILE™
Ultralight Gun Safe

Brand Name:	AGILE™ DOOR ORGANIZER
Model:	AG-40-Dr-Org	AG-52-Dr-Org
Description:	Door Panel Storage Organizer

Congratulations on the purchase of your Agile™ Door Panel Storage System!

Note: This overview applies to the door organizers available for the Agile™ Model 52 and the Agile™ Model 40.

Tools Needed:
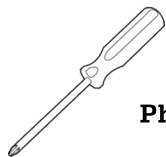

**Medium Size
Phillips-Head Screwdriver**

AG-40-Dr-Org   AG-52-Dr-Org

Steps:

1. Remove the top three (3) screws from the internal door-panel of your Agile™ cabinet.

2. Re-Insert the top screw through the top grommet hole of the organizer and into the threaded hole on the back of the cabinet door.

3. Remove the backing of the top hook and loop strip to expose the adhesive. Align the grommet holes with the screw holes and press the organizer to the door to set in place.

4. Re-insert the remaining top screws through the grommet holes of the organizer and into the threaded holes on the back of the cabinet door.

5. Remove the remaining door-panel screws.

6. Remove backing of the remaining hook and loop strips to expose the adhesive. Align the grommet holes with the screw holes and press the organizer to the door to set in place.

7. Re-insert the remaining door-panel screws through the grommet holes of the organizer and into the threaded holes to complete the installation process.

Note: The Agile™ door organizers have a 20lbs weight capacity. To prevent fabric deformation, we do not recommend exceeding this weight capacity.
